

# CNB Bank & Trust Seek New Cybersecurity Solution

Before Adlumin, CNB Bank & Trust used a cybersecurity solution that was discontinued by their provider. The provider was planning to replace the solution with a new, more laden product. The new solution came with a higher price tag giving some customers no option but to explore new cybersecurity solutions.

CNB Bank & Trust set their criteria and began evaluating different solutions. Knowing that Adlumin is a CBSC Preferred Service Provider, they were included in the group of new solutions. Adlumin stood out due to its services that protect CNB Bank & Trust's organization, employees, and customers.

The menu of services they [Adlumin] perform that protect our system is impressive. The dashboard is intuitive and easy to navigate. Any banker looking to upgrade their cyber protection should look at Adlumin. You'll be impressed."

- SHAWN DAVIS, PRESIDENT, AND  
CEO AT CNB BANK & TRUST

## Adlumin Illuminates Threats and Eliminates Risks for Banks

Adlumin helps banks better secure their environments with expert-led, enterprise-grade security tailored to their size and budget. Deploying in minutes, onboarding is simple regardless of architecture or technology. Banks do not have to pick and choose capabilities. With Adlumin's Security Operations Platform plus Managed Detection and Response Services, community banks have everything they need to maintain a top-tier security posture.

## About Adlumin

Adlumin Inc. provides the enterprise-grade security operations platform and managed detection and response services that keep financial institutions secure. With one license and one platform, its patented technology gives organizations and solution providers everything they need for effective threat hunting, incident response, vulnerability management, darknet exposure monitoring, compliance support and much more. The Adlumin platform is feature-rich enough for organizations to operate on their own, yet built specifically to amplify the skills and capabilities of managed service providers.
