

Adlumin Protect Warranty Certification

\$500,000 Warranty for Adlumin Protection Plus Suite Customers

The Adlumin Protect Warranty builds on our vision to provide a single platform that equips organizations with full visibility and the tools required to combat cybersecurity threats. Adlumin Protect is a low-friction certification warranty designed to safeguard Adlumin customers against business continuity and insure against loss, protecting their revenue and recovery.

The warranty is included at no cost to customers who purchase the Adlumin Protection Plus Suite and provides reimbursement warranted up to \$500,000, to those who qualify.

Adlumin Protection Plus Suite

Includes the following:

In addition, customers must purchase [one of the following](#) three solutions:

The warranty covers the following events:

Ransomware/Business Email Compromise: ransomware, including remediation and ransoms, or a business email compromise resulting in funds transfer or invoice fraud, including remediation and lost funds (\$100,000 / year).

Compliance Event: a cyber breach that triggers HIPAA, PCI, OSHA, and/or state-related violations and results in a regulatory penalty, fine, or related expenses (\$100,000 / year).

Legal Liability: a suit arising out of a cyberattack, including loss or misuse of data, or a media peril related to your website where legal defense and settlement costs are incurred (\$250,000 / year).

Business Interruption: a security breach that results in the loss of business income (net profit or loss before income taxes), and/or any continuing operating expenses affected by it (\$50,000 / year).

To enroll in the warranty coverage, the following cybersecurity best practices should be in place.

- Deployment of industry standard and up-to-date anti-virus or comparable prevention tools on endpoints.
- PHI/PII encryption and data backups are in place.
- Multi-factor authentication is active on all email accounts.
- Deployment of an offline backup solution for critical business data.
- Commercially reasonable maintenance is performed, including applying patches and updates within 60 days of release.
- Security awareness training is provided to employees.
- Out-of-cycle wire transfers and invoice routing information changes are verified with the requester and documented.
- If applicable, adherence to any state, federal, regulatory, privacy, and security policies related to which they are subject, including, but not limited to PCI, HIPAA, and SEC standards.

If you have a cyber insurance policy, Adlumin Protect Warranty will not change the coverage or terms of the cyber insurance policy. It may increase your insurability and reduce premiums.

www.adlumin.com

Adlumin Inc. provides the enterprise-grade security operations platform and managed detection and response (MDR) services that keep mid-market organizations secure. With one license and one platform, its patented technology gives organizations and solution providers everything they need for effective threat hunting, incident response, vulnerability management, darknet exposure monitoring, compliance support, and much more.

The Adlumin platform is feature-rich enough for organizations to operate on their own yet built specifically to amplify the skills and capabilities of managed service providers who use it to deliver cutting-edge security that can scale to meet the needs of any operating environment. With full access to the platform regardless of whether they are running it themselves or relying on Adlumin's MDR services or expert partners, Adlumin gives organizations unparalleled visibility into their security posture through access to alerts, investigation data, threat intelligence, compliance reporting and everything else – all in real time.
